RE: CertMap Now Available

ServiceLink National Flood is pleased to announce it will add CertMap for all customers, when insurance is required, at no additional cost. In an effort to continue to enhance your customer experience, we hope you find CertMap a useful tool when insurance is required.

CertMap incorporates high resolution FEMA images, digital road layers and full color satellite and aerial images. This high quality PDF exhibit is appended to current flood certifications where flood insurance is required. This tool is helpful in illustrating why flood insurance is required resulting in fewer disputed determinations. Information detailing how to secure flood insurance is included. To opt out of CertMap, please email Customer Service at flood@svclnk.com or call (800) 833-6347 option 2 and include your account number and contact information.
